

Listening is believing

Spectacular explosions or high-speed car crashes will never sound as gloriously punchy, life-like and rich in detail as they will from our new Custom Theatre subwoofers. Powered by a separate SA 1000 amplifier, both speakers in the range slot neatly into home theatre cabinetry and use a uniquely rigid mushroom diaphragm construction to deliver unparalleled bass effects. With its powerful 12 inch paper/Kevlar® drive unit, the CT SW12 delivers the maximum explosive punch for your money.
